

# READ ME

The Folder contains the following files:

- **[Aspire\_public.dta]**
- The questionnaire
- Variable guide
- CSAE working Paper: *Aspire*

**[Aspire\_public.dta]** contains data on the baseline characteristics (such as education, gender, marital status) of the individuals taking part at the Aspire business competition.

The questionnaire can be straightforwardly linked with the two datasets. In addition the variable guide explains the meaning and the coding of the datafile.

Information about the sample, for example basic characteristics can be found in the CSAE working paper: *Aspire*

If you are interested in obtaining data on the treatment indicators (i.e. the ranking in the competition) or other confidential data then please contact Simon Quinn at CSAE, [simon.quinn@economics.ox.ac.uk](mailto:simon.quinn@economics.ox.ac.uk).
